Each photography session in the studio lasts about 1 hour. It's a free-form creative photo session. We will do a variety of poses/props/backdrop/group combinations to capture your child's spontaneity. After your photo shoot, we will take another 20 minutes to generate a preview DVD of all good exposures (typically 200 to 300) taken during your session. You can bring the preview DVD home for your selection at your own time. Images on the Preview DVD are in low viewing resolution of 600x400 pixels, and not for printing. Alternatively, you can select the images on the spot. Camera used is the 50-megapixel Canon 5Ds.

You can choose a mixture of newborn/child portraits & children/family portraits for your album. Children/family portraits are priced at an additional \$30 (per image) above newborn/child portraits. Therefore, for e.g. for Merry Package with 8 child & 2 family portraits, your package total is \$388 + (2 x \$30) = \$448 nett only.

All selected images will be edited for color, contrast, saturation, cropping, and light facial touchups. Detailed/extensive digital editing from additional \$20 per image.
